Physician's Directory

National Kidney and Transplant Institute
East Avenue, Quezon City, Philippines, 1104
FOREWORD

The National Kidney and Transplant Institute, from its humble beginnings as a foundation dedicated to treating kidney, genitourinary tract diseases and organ transplantation, has evolved into what is presently considered the most formidable team in their specialties in the Philippine healthcare arena.

Now in its 30th year, the Institute is very proud to present the new Physicians Directory highlighting our homegrown experts and internationally-trained and acclaimed specialists.

One essential factor for an organization to achieve successful healthcare implementation is through harnessing its human resources. The practice of medicine in the Institute has blossomed over time through reinforcing the expertise, capabilities and support facilities of the doctors. In light of the increasing demands of patient care, the NKTI management established a Medical Arts building for doctors in order to provide a “niche” where they can directly interact with patients, as well as to support professional growth through private practice.

Over the years, the number of doctors multiplied as patient referrals increased. As a renowned training institute, NKTI has been able to realize its mandates through the sharing of expertise and transfer of knowledge by implementing effective, relevant and up-to-date training protocols that supplement service continuity – ensuring that the NKTI way of patient care and management is inherited by the present and future generations of doctors.

The success of the NKTI is congruent to the success of its personnel. We are a team, a family. Despite being a specialty hospital, we are very proud that camaraderie and teamwork has long been realized in the Institution – a measurement indicator that we have sustained the holistic way of delivering healthcare through a dynamic mix of specialists and generalists, young and old, coming from the best medical schools in the country and who have been further educated in leading specialty centers around the world.

I thank everyone for the success of NKTI. Let us all infuse the culture of cooperation and capacity-building towards being a more competitive and innovative institution.

Special recognition goes out to our staff from the Public Information Office, Executive Offices and the Department Offices. Thank you very much for putting this directory together.

JOSE DANTE P. DATOR, M.D.
Executive Director

ABOUT NATIONAL KIDNEY AND TRANSPLANT INSTITUTE

The National Kidney and Transplant Institute (NKTI) is a government-owned and controlled corporate tertiary specialty center attached to the Department of Health. Its mandate is to specialize in the prevention, diagnosis, rehabilitation and treatment of kidney and allied diseases through dialysis and transplantation. It focuses on service, training and research in the field of renal diseases and organ transplantation.

From its auspicious beginning as the pioneer institution in specialty and tertiary health care in 1983, the NKTI has grown to become the premier transplant center in the country.

The NKTI has a consultant complement of more than 300 medical specialists and 1,000 support staff. The hospital boasts of advanced medical facilities that can handle emergencies and complicated cases in surgery, urology, nephrology, and other fields of Medicine. A recent addition is the Diagnostic Center with the latest state-of-the-art equipment at par with the best private hospitals in the Philippines and Asia.

Extensive programs for doctors include residency training in medicine, urology, radiology, pathology, anesthesiology, and fellowships in adult and pediatric nephrology, oncology, anesthesiology, vascular surgery and organ transplantation. Also offered are specialty training programs for nurses and other allied health-care providers.

It is the first government hospital to obtain the ISO (International Organization for Standardization) certification in comprehensive specialty health services.

NKTI delivers world-class quality service tempered with kindness and compassion.
DIRECTIONS TO NATIONAL KIDNEY AND TRANSPLANT INSTITUTE
The Department of Anesthesiology was established in 1983 with Aurea Z. Ambrosio, MD, DPBA, as Chairman. They started providing anesthesia care for patients undergoing Organ Transplant Surgery and Critical Care cases.

The original National Kidney Foundation which there was dedicated to renal surgical procedures and has expanded to include all services except cardiac surgery and OB and renamed as National Kidney and Transplant Institute.

HIGHLIGHTS OF ACHIEVEMENTS:

1983 – Revived the living related kidney transplant in a government institution.
1988 – First simultaneous Kidney and Pancreas Transplant Surgery, the first double organ transplant in Asia. Each year, we do cases of Renal Transplant Surgery at an average of 200-400 patients/year. Since 1988, we also started doing Liver Transplant Surgery.
1996 – First Pediatric Living-Related Liver Transplant Surgery was done in the Philippines.

Provides clinical anesthetic care for all types of surgical, diagnostic and therapeutic procedures such as:

· Transplant Surgery
· General Surgery
· Urology
· Ambulatory Surgery/Procedures
· Orthopedics
· Ophthalmology
· Pediatric Surgery
· Endoscopy
· Neurosurgery
· Interventional Radiology
· Gynecology and Women’s Health
· Vascular Surgery
· Minimally invasive surgeries e.g. lapcholecystectomy, lap-urological procedures including lap-donor nephrectomies and percutaneous kidney stone removal.

Beyond the operating room theater, we render anesthesia care to ambulatory cases such as Peripheral and Coronary Angioplasty, ESWL, Diagnostic CT scan, MRI, and Nuclear. We give anesthesia service to state of the art procedures like endovascular aortic repair for aortic aneurysm.

All procedures and cases were made possible with the acquisition of the latest state of the art anesthesia equipments. All anesthetic procedures are thoroughly monitored using state of the art monitoring like oxymetry, capnography, BISpectral monitor (measure of depth of anesthesia), and TOF watch for neuromuscular block.

The anesthesia department employs newer technique like target controlled infusion for total intravenous anesthesia, regional blocks using ultrasound.
The Anesthesia Department presently composed of 7 practicing consultants:

- **Jaime G. Velasquez**, MD, DPBA, Department Chairman
- **Ernesto Sancho R. Castillo**, MD, DPBA, Training Officer
- **Arnold S. Uy**, MD, DPBA, Transplant Anesthesia/Anesthesia for Liver/Pain Specialists
- **Luis Antonio R. Aoanan**, MD, DPBA, Transplant Anesthesia/Peripheral Nerve Block
- **Michael Y. Mendoza**, MD, DPBA, Transplant Anesthesia/TEE
- **Ma. Imelda M. Gloria**, MD, DBPA, Transplant Anesthesia/Ambulatory
- **Abelardo Alan P. Prodigalidad**, MD, DPBA, Cardiac Anesthesia

**Trainings:**

Anesthesia training is one of the most comprehensive training in the Philippines. It includes special rotation in the fields of Cardiac Surgery, Thoracic Surgery, Pediatrics, Trauma, EENT, Optha and Obstetrics. Residents spend a good part of training in different centers like:

- Lung Center of the Philippines
- Philippine Heart Center
- Philippine Children's Medical Center
- East Avenue Medical Center
- Cardinal Santos Medical Center

Aside from outside rotation of the trainees they also do Ambulatory cases as well as acute and chronic pain management, organ transplantation and critical care. Exposure to research and doing research papers are part of their curriculum.

At the end of the three-year course, the trainees should be able to:

- Provide safe and quality anesthesia care for all surgical, obstetrical, diagnostic and therapeutic procedures
- Do proficiently pre- and post- operative evaluation of patients
- Manage competently, evaluation and treatment of critically ill patients, fluid and electrolyte replacement, and respiratory therapy
- Perform competently, resuscitative procedures inside and outside the operating room complex
- Provide pain relief by nerve blocks, and other accepted anesthetic procedures
- Be proficient in the application of the working principles of the anesthesia machine and monitoring devices, both invasive and non-invasive, as well as other adjunctive equipment
- Develop an analytical attitude toward available scientific and clinical information, and do investigative procedures or research
- Provide consultation services in Anesthesiology when requested by fellow anesthesiologists and by other specialties
- Qualify for certification by the Philippine Board of Anesthesiology as a Diplomate.
- Be a teacher in anaesthesiology.

Specialization: Critical Care Anesthesia
Organ Transplantation
Peripheral Vascular Surgery
Department of Internal Medicine
History

The Department of Internal Medicine of the National Kidney and Transplant Institute is an accredited training institution for internal medicine by the Philippine Specialty Board of Internal Medicine of the Philippine College of Physicians. It was organized in 1987 by Director Filoteo Alano with the late Dr. Benigno Agbayani as the department’s first chair. From a handful of active consultant staff and an initial two (2) residents in 1987, the department now (2013) has more than 40 active consultant staff, has trained 95 residents in Internal Medicine as of 2012, and has an in-training staff of 23 residents. Most of the graduates have pursued subspecialty training in various fields of Internal Medicine and others have sought further foreign training in the United States, Australia, and Singapore. Other than internal medicine training, the department also has subspecialty training in oncology, organized in 2005 by Dr. Gloria Cristal - Luna.

Mission and Vision

The department’s Mission and Vision fully supports the Mission and Vision of the institute in its quest of becoming a lead tertiary hospital in renal disease and transplantation, through an excellent program in internal medicine training, research, and patient care.

To achieve its mission, the department has regularly held workshops to assess its strengths, weaknesses, opportunities and threats. It has continued to “cross the river by feeling the stones” (ancient proverb by Deng Xiaoping). It means implementing reforms in a manner where the department advances step-by-step by summing up the situation from their experience, both positive and negative, to reach its goal of excellence.

Consultant staff

The department is proud to have within its active consultant staffs, an elite core of physicians representing the different subspecialties of internal medicine. The executive committee, composed of the training officer, the head of research and organizational and staff development committee, the head of service committee, head of admissions, and the immediate past chairman, manages the programs of the department. The different sections of internal medicine, which include cardiology, pulmonary medicine, gastroenterology, infectious diseases, endocrinology, nephrology, hematology, neurology, oncology, dermatology, rheumatology and allergy/immunology, psychiatry, and clinical nutrition, provide a comprehensive care for each patient.

Commitment to service

The department’s commitment to service is continually being reevaluated and improved. It attends to 37% of hospital admissions and 22% of the charity out-patient services. It also handles the emergency room as ER officer, the intensive care unit, intermediate medical care unit and charity medicine admissions numbering 313 last year within a budget of 10-15% of the institutional budget allocation. The continuous expansion of the institution, the opening of the much bigger emergency room, and the decreasing subsidy from the government will definitely be a challenge for the department. But this will be a challenge that the department will face with enthusiasm and vigor in order to achieve excellence in the delivery of healthcare.
Research development

Development of quality researches has also been a thrust of the department for the past years. Despite some hindrances to research, the department was able to produce several quality researches through the effective mentoring and guidance of the residents in the research development process. Most of the research papers won in the annual institution-wide research forum and most were presented in national meetings as poster or oral presentation with a number making it for international presentations and for publication in national and international peer reviewed journals.

Other achievements

For several years, the department has been awarded as the Best Department in the Emergency Room. The residents are also proud to gain other recognitions as: Best NKTI employee, Best ER Officer, and won inter-hospital contests, including the much-desired Annual PCP-Pfizer Quiz contest (1995 and 2009 Grand Champion). The graduates of the department have a consistent 100% passing rate for the certifying board examination of the Philippine Specialty Board of Internal Medicine (2005-2013).

Organizational development

In its quest to achieve its mission of quality patient care through the pursuit of excellence in training, research and healthcare, the department has embarked on a process of change that includes a patient safety program and the development of leadership competencies in its residency training. These include leadership qualities of integrity, compassion, good communication skills, professionalism, discipline, and work excellence among many others. Personal coaching and mentoring have provided the needed support to the residents who have been adjusting to the challenges of residency training. A total performance management cycle evaluating consultants and residents was also started.

The department will press on to live within the healer’s mission, to have the heart and mind of a compassionate physician, to always be open to change, to be in an attitude of learning, to behave as competently as the rest of the world, and to pursue excellence for an excellent service to our people and for God’s greater glory.
CARDDIOLOGY

Ernesto B. Baeillo Jr., M.D.

Medical School: University of the Philippines College of Medicine

Residency: Southern Illinois University

Fellowship: University of Iowa
State University of New York at Buffalo

Specialization: Adult Cardiology
Echocardiography

Department of Laboratory Medicine
The NKTI Medical Laboratory is a full service clinical laboratory that delivers the best in diagnostic health care since its establishment in 1983. As the first ISO 15189:2007 accredited laboratory in the Philippines, it provides excellent diagnostic support for Asia’s leading organ transplantation center, the National Kidney and Transplant Institute, as well as other establishments in the country and around the globe. The broad scope of laboratory services is effectively and functionally organized under three main divisions: Anatomic Pathology and Clinical Pathology (APCP), Hematology and Transfusion Medicine (HTM), and Immunology and Molecular Genetics (IMG) and are supervised and interpreted by some of the best pathologists, medical specialists, and laboratory professionals in the country. All laboratory tests are likewise performed by fully-trained, highly-skilled, and experienced medical technologists, ensuring patrons of the high quality laboratory tests with accurate and timely results.

SPECIALTY SERVICES

- Apheresis
- Flow Cytometry
- Fluorescence and In-Situ Hybridization
- Histopathology
- Immunohistochemistry
- National Reference Laboratory
  - Hematology
  - Immunohematology
  - Immunopathology
  - Automated Urinalysis
  - Anatomic Pathology for Renal Diseases and other unassigned organ system diseases
- PCR Based Testing
- Platelet Aggregometry
- Point of Care Testing (POCT)
- Renal Pathology and Electron Microscopy
- Therapeutic Drug Monitoring
- Tissue Typing
- Virology

Department Of Adult Nephrology
The Department of Adult Nephrology provides excellent, comprehensive, cost-effective, and globally competitive primary and specialty care for adult patients with kidney diseases. Its highly accomplished, competent, dedicated and well-recognized Nephrology Consultants are experts in glomerulonephritis (GN), hypertension, acute kidney injury (AKI), chronic kidney disease (CKD), and electrolyte and acid-base disorders, hemodialysis (HD), peritoneal dialysis (PD), continuous renal replacement therapy (CRRT), kidney biopsy and kidney transplantation (KT). They see patients in the clinics, wards, intensive care unit (ICU), emergency room (ER) and dialysis units.

The Department Consultant staff is well-supported by competent Nephrology fellows-in-training, nurses, nutritionists, pharmacists and other specialty physicians in the holistic care of their renal patients.

The Department’s programs include:

- General Nephrology
- Kidney Transplant
- Hemodialysis and Continuous Renal Replacement Therapy
- Peritoneal Dialysis
- Kidney Biopsy
- Chronic Kidney Disease Education and Counselling Program
- Research

Department of Pediatric Nephrology
The Department of Pediatric Nephrology endeavors to maintain its utmost standards of excellence through its three-pronged approach of service, training and research. Its target population, patients ages 0-18 years old, in health care delivery is continuously growing, about 5-10% annually. The services that the department provides include:

- Comprehensive medical care to pediatric renal patients
- Renal replacement therapies for chronic kidney disease V (CKD V) patients
  - Peritoneal dialysis
  - Hemodialysis
- Ultrasound-guided percutaneous renal biopsy
- Pediatric renal transplantation care (Pre- and Post-op care)
- Immunization for CKD V patients

The Department also pursues Fellowship Training Program accredited by the Philippine Society of Nephrology/Pediatric Nephrology Society of the Philippines that contributes to better kidney health care delivery for the country’s future, the children.

Likewise, relevant researches are being undertaken for progressive, innovative, quality renal health care in children. Such researches are either published or presented locally or internationally.

**Outpatient Clinics:**

- General Pediatric Nephrology Clinic
- Pediatric Urology Clinic
- ESRD, Dialysis and Hypertension Clinic
- Pre-Transplant Work-up/Post Kidney Transplant Clinic
- Pediatric renal nutrition education Program
- Pediatric renal executive check-up (Screening Program)

The Department of Pediatric Nephrology sees patients at our Outpatient Department Clinic on the 1st floor of Annex II Building.

Nuclear Medicine Division
The Nuclear Medicine Division provides both diagnostic and therapeutic services to adult and pediatric patient population. Our two new SPECT gamma cameras are the mainstays for high-quality scintigraphic procedures that cover various specialties like:

- Nephro-Urology such as dynamic renal scintigraphy, in-vitro GFR studies, renal cortical scintigraphy and radionuclide cystography
- Bone Scintigraphy
- Myocardial Perfusion Scintigraphy
- Lung Perfusion and Ventilation Scintigraphy
- GI Bleeding Scintigraphy
- Hepatobiliary Scintigraphy
- Thyroid scan and Iodine-131 uptake, Parathyroid Scintigraphy
- Tumor imaging with Ga-67, I-131 MIBG, Octreotide

The top-of-the-line DXA Bone Densitometer can perform both Bone Mineral Density and Body Composition testing.

We offer routine radioactive iodine therapy for hyperthyroid and thyroid cancer patients and we are capable of performing special procedures like selective internal radiotherapy using Yttrium-90 microspheres for hepatic malignancies as well as radionuclide synovectomy.

We are also partners with the different clinical specialties of the institute in providing training and research activities to the residents, fellows and interns.

Soon, a state-of-the-art PET-CT scanner will be installed that will allow us to add molecular and metabolic imaging to our diagnostic procedures. This will be possible with the medical cyclotron which will be housed nearby within hospital premises producing positron-emitting radiopharmaceuticals.

Together with the institute’s radiologists, the PET-CT facility will provide molecular fusion imaging with proven high diagnostic accuracy in various specialties like Oncology (FDG imaging for various malignancies), Neurology (Alzheimer’s and Parkinson’s disease) and Cardiology (myocardial perfusion/viability).

Department of Organ Transplantation and Vascular Surgery
The Department of Organ Transplantation and Vascular Surgery provides the most comprehensive and advanced specialty care to both adult and pediatric patients with end-stage organ and vascular diseases.

The Section of Organ Transplantation provides a complete evaluation and work up for recipients and their respective living donors including a pre-transplantation seminars and outpatient care in collaboration with other specialty departments. We also have a multi-organ cadaver donation program in coordination with the Human Organ Preservation Effort (H.O.P.E.) which provides organs (e.g. Kidney, Liver, Pancreas, etc.) to recipients without living donors.

In the Section of Vascular Surgery, we are the first to conceptualize an integrated specialized clinic (iVasC) catering to vascular diagnostics, evaluation and surveillance, as well as wound and ostomy care.

The Section provides open and endovascular procedures, both diagnostic and therapeutic, for arterial, venous or lymphatic diseases. We also cater the most advanced access creation strategies including ultrasound guidance, pre-operative and post-operative permanent access evaluation and surveillance, manages its various complications to ensure a long term patency period.

Our practice in treating these range of patients has been a multi-disciplinary team approach which includes physicians from various fields of specialty, immunologists, nutritionists, transplant coordinators, specialized nursing services, laboratory and radiology technicians and social services,

Department of Radiological Sciences
The NKTI-Department of Radiological Sciences is committed to provide excellent medical imaging and perform interventional procedures with timely and accurate diagnosis with the least economic impact to its patients. Combined with the highest level of training and research in the field of Diagnostic and Interventional Radiology for genito-urinary, vascular diseases and organ transplantation and the acquisition of the latest advances in technology, medical knowledge, skills and techniques makes the Department as one of the premier radiology centers in the country today.

The Department of Radiological Sciences is located at the NKTI Diagnostic Center which is a state of the art facility that houses all the cutting edge-technology in today's modern medical imaging. It is the living “proof of concept” that the government can actually be at par with the private sector in terms of equipment and services, providing access to quality healthcare for all walks of life. As a commitment in providing the best possible care to its patients, the NKTI has acquired the latest innovations in medical imaging technology in order to support the thrust of the Department of Health in providing “universal healthcare” for the Filipino people.

COMPOSITION

- Diagnostic X-Ray
- CT Scan
- Magnetic Resonance Imaging (MRI)
- Vascular Ultrasound
- General Ultrasound
- Intra-Operative/Laparoscopic Ultrasound
- Women's Medical Imaging
- Interventional Radiology

OVERVIEW OF CLINICAL TRAINING PROGRAM:

I. CLINICAL TRAINING
   A. 4-YEAR RESIDENCY TRAINING
      The Residency training provides the resident basic knowledge and competent skills to interpret diagnostic images and perform interventional and angiographic procedure.

   B. 1 ½ YEAR FELLOWSHIP TRAINING
      The fellowship training provides further knowledge to hone skills in interpreting diagnostic images. The program consists of a one-year extensive training in CT Scan and MRI and 6months extensive training in diagnostic, vascular and interventional ultrasound procedures.
II. ACADEMIC TRAINING

1. Weekly Radiologic lectures, reports, and monthly departmental examinations.
2. Bimonthly Scientific meetings and in-service examinations sponsored by the Philippine College of Radiology
3. Submission of complete PCR Logbook

III. Research

The residents and Fellows are required to submit at least one-(1) research paper as a requirement for completion.

- Asia-Medical Diagnostic Center, Singapore
- New York University Hospital
- University of California in San Francisco
- Tomas Jefferson Hospital, Philadelphia

**Specialization:** General Radiology
- Ultrasound
- CT Scan, MRI

---

**Orlando R. Ignacio, M.D.**

**Medical School:** Far Eastern University
- B.S. Pre-Med, Doctor of Medicine

**Residency:** Philippine Heart Center

**Fellowship:** Philippine Heart Center

**Specialization:** Cardiovascular and Interventional Radiology

---

**Ferdinand L. Morabe, M.D.**

**Medical School:** University of the Philippines

**Residency:** UP-Philippine General Hospital

**Specialization:** General Diagnostic and Interventional Ultrasound
- Vascular Ultrasound
- Vascular and Non-Vascular Interventional Radiology
Maureen Emily S. Salarda, M.D.

Medical School: Manila Central University
Filemon D. Tanchoco Medical Foundation

Residency: National Kidney and Transplant Institute

Fellowship: National Kidney and Transplant Institute

Specialization: Diagnostic and Radiology
General Ultrasound
CT-Scan
MRI

Gerardo M. Silva, M.D.

Medical School: Far Eastern University
Nicanor Reyes Medical Foundation

Fellowship: New York University-Medical Center
New York, USA (2004) (Visiting)
University of California San Francisco Medical Center, San Francisco
California (2002) (Visiting)
National Kidney and Transplant Institute (1991)

Specialization: Ultrasound
CT Scan
MRI and Interventional Radiology

Jaime G. Tomas, M.D.

Medical School: University of the Philippines
Philippine General Hospital

Residency: UP- Philippine General Hospital
Sinai Hospital of Baltimore

Fellowship: New England Medical Center (Boston)

Specialization: Diagnostic and Interventional Radiology
VISION

By 2015, the NKTI Department of Surgery will be the leading provider of basic and complex surgical care with the highest standard of excellence.

MISSION

To provide best quality care to patients requiring surgical services in the area of general and specialty surgery such as TCVS, Gynecologic, Orthopedic, ENT, Pediatric, Neurosurgery and Ophthalmology, including wound care of their ability to pay

To provide a competency based basic (2 years) surgical residency training program in preparation for their next level

To maintain high professional standards in keeping with current advances and best practice

GOALS

❖ Minimize cost, maximize productivity
❖ Intense training with strict supervision, guidance & structured curriculum
❖ Involve faculty with more professional development
❖ Promote growth and development of research, epidemiologic studies, clinical trials and the like
❖ Encourage MDT, interdisciplinary teaching & collaboration
❖ Revise all manuals (quality, CPGs, Res program manual)

STRATEGIES

➢ Patient Services
➢ Professional Services
➢ Training & Research
➢ Database Management
➢ Advocacy
PATIENT SERVICES

Increase overall volume of General Surgery cases especially in the field of breast, colorectal, hepatopancreatobiliary surgery and wound care.

PROFESSIONAL SERVICES

Commitment
Culture of teamwork and tools to enable it!
Competent, productive Lean & Mean staff

TRAINING

New surgical training program catering to the unique needs of NKTI - 5 years Vascular & Urology straight program with first 2 years as General Surgery residents for the basic principles and competencies of surgery.

ADVOCACY

Strengthen interdisciplinary collaboration and raise level of standard of care & services.

34 ACTIVE CONSULTANTS

53 VISITING CONSULTANTS

5 PLANTILLA ITEMS
Natividad A. Almazan, M.D.

Medical School: University of the Philippines
Residency: UP-PGH, Department of Otolaryngology (Head-Neck Surgery)
Fellowship: Teikyo University, Otology 1990 Tokyo, Japan
Specialization: Surgery & Rehabilitation of Hearing Loss Ear Infections

Arsenio Claro A. Cabungcal, M.D.

Medical School: University of the Philippines College of Medicine
Residency: UP-Philippine General Hospital (Otorhinolaryngology ENT)
Fellowship: UP-Philippine General Hospital (Head & Neck Surgical Oncology)
Erasmus Medical Center (Head & Neck Cancer Surgery)
(Clinical Fellowship)
Specialization: Otorhinolaryngology (ENT)
Head & Neck Cancer Surgery
Anterior Skull Base Surgery
Maxillofacial Fractures
Nose & Paranasal Sinuses

Rene S. Tuazon, M.D.

Medical School: University Of the Philippines College of Medicine
Residency: UP-Philippine General Hospital Department of Otolaryngology
Fellowship: University of Tokyo (Allergy in Otolaryngology)
Specialization: Rhinology Laryngology Allergy
Josephine V. Banaag, D.M.D.

Medical School: University Of the Philippines College of Dentistry

Specialization: Dentistry for the medically-compromised patient
               Dental Health Education for the medically compromised patient

Marie Fe R. Dela Paz, D.M.D.

Medical School: University of the East

Specialization: General Dentistry & Orthodontics

Minda F. Laforrteza-Virtudes, D.M.D.

Medical School: Centro Escolar University
Residency: Far Easten University, Manila

Specialization: General Dentistry
               Orthodontics

Lily Joyce L. Virtudes-Pacariem, D.M.D.

Medical School: Centro Escolar University
Residency: Ospital ng Maynila
Fellowship: East Avenue Medical Center

Specialization: General Dentistry
               Orthodontics
Amihan A. Banaag, M.D.
Medical School: University of the East Ramon Magsaysay Memorial Medical Center (UERMMMC)
Residency: East Avenue Medical Center
Specialization: General and Cancer Surgeon

Maximino Dy-R. Elgar, M.D.
Medical School: University of the Philippines
Residency: UP-Philippine General Hospital
Fellowship: UP-Philippine General Hospital
Specialization: Laparoscopic Surgery

Pedrito E. Guevarra, M.D.
Medical School: University of the East Ramon Magsaysay Memorial Medical Center (UERMMMC)
Residency: Capitol Medical Center (General Surgery)
Specialization: Laparoscopic Surgery Cancer Surgery

Enrico P. Ragaza, M.D.
Medical School: University of the Philippines
Residency: UP-Philippine General Hospital
Fellowship: UP-Philippine General Hospital
Specialization: General and Cancer Surgery Minimally Invasive Surgery (Laparoscopy) Colon and Rectal Diseases

Catherine Sia Cheng Teh, M.D.
Medical School: University of Santo Tomas
Residency: Chinese General Hospital and Medical Center Department of Surgery
Fellowship: National Cancer Center, Singapore Department of Surgical Oncology
Specialization: General Surgery HPB (Hepatobiliary Surgery)
Aldwin A. Yaneza, M.D.

Medical School: University of the Philippines
College of Medicine

Residency: National Kidney and Transplant Institute
Department of Surgery 1997

Specialization: General Laparoscopy
Laparoscopic Surgery

Caroline R. Zalameda-Castro, M.D.

Medical School: University of the Philippines

Residency: UP-Philippine General Hospital
Department of Obstetrics and Gynecology

Fellowship: UP-Philippine General Hospital
(Gynecologic Oncology)

Specialization: Gynecological Malignancy
Benign Gynecologic Diseases
Gynecologic Laparoscopy
Minimally Invasive Surgery

Doris R. Benavides, M.D.

Medical School: University of the Philippines

Residency: UP-Philippine General Hospital
Department of Obstetrics and Gynecology

Fellowship: UP-PGH, Department of OB-Gyn
Section of Gynecologic Oncology
Chang Gung Memorial Hospital (LINKOU)
Taoyuan, Taiwan Department of OB-Gyne Division of Endoscopy
(Advanced Gyne Laparoscopy)

Specialization: Gynecological Malignancy
Benign Gynecologic Diseases
Gynecologic Laparoscopy
Minimally Invasive Surgery

Marisol M. Pangan-Gorospe, M.D.

Medical School: University of the Philippines
College of Medicine

Residency: UP-Philippine General Hospital
Department of Obstetrics & Gynecology

Fellowship: St. Luke’s Medical Center
(Ob-Gyn Ultrasound)

Specialization: Ultrasound
Infertility
Menopause
Sol M. Pangan, M.D.

Medical School: University of the Philippines
Residency: UP-Philippine General Hospital (OB Gyne)
Fellowship: Women's Hospital, University of Lund, Sweden
Specialization: OB-Gyne
OB-Gyne Ultrasound
Perinatology

Mildred N. Pareja, M.D.

Medical School: UP College of Medicine
Residency: UP-Philippine General Hospital (1962-1966) (Obstetrics & Gynecology)
Fellowship: UP-Philippine General Hospital
Specialization: OB-Gyne
Infectious Disease Endoscopy

Grace P. Serrano, M.D.

Medical School: University of the Philippines College of Medicine
Residency: UP-Philippine General Hospital Department of Obstetrics & Gynecology
Fellowship: UP-Philippine General Hospital (Reproductive Endocrinology and Infertility)
Specialization: OB-Gyn Ultrasound
Infertility

Renee Vina G. Sicam, M.D.

Medical School: University of Santo Tomas Faculty of Medicine and Surgery
Residency: UP-Philippine General Hospital Department of Obstetrics and Gynecology
Fellowship: UP-Philippine General Hospital (Gynecologic Oncology)
Chang Gung Memorial Hospital, Taiwan (Gynecologic Endoscopy)
Specialization: Obstetrics and Gynecology
Gynecologic Oncology
Minimally Invasive Surgery
Jean Anne B. Toral, M.D.

Medical School: University of the Philippines
College of Medicine
Residency: UP-Philippine General Hospital
(Ob-Gyn)
Fellowship: UP-Philippine General Hospital
(Gynecologic Oncology)
Specialization: General OB-Gyn
Gynecologic Oncology
Colposcopy

Antonia Felipa M. Sison, M.D.

Medical School: University of Santo Thomas
Residency: Santo Tomas University Hospital
Fellowship: Royal Alexandra Hospital for Children
Sydney, Australia
Specialization: General Ophthalmology
Pediatric Ophthalmology
Strabismus

Kristine E. Bacsal-Flores, M.D.

Medical School: University of the Philippines
College of Medicine
Residency: UP-Philippine General Hospital
Department of Ophthalmology and Visual Sciences
Fellowship: Singapore National Eye Center
Specialization: General Ophthalmology and Cataract Surgery
Ocular Inflammation and Immunology

Jaime V. Balingit, Jr., M.D.

Medical School: University of the Philippines
College of Medicine
Residency: UP-Philippine General Hospital
Department of Ophthalmology and Visual Sciences
Specialization: General Ophthalmology and Cataract Surgery
Refractive Surgery
Aldous M. De Leon, M.D.

Medical School: University of the Philippines  
College of Medicine

Residency: UP-Philippine General Hospital  
Department of Ophthalmology and Visual Sciences

Fellowship: UP-Philippine General Hospital  
Department of Ophthalmology and Visual Sciences

Specialization: General Ophthalmology and Cataract Surgery  
Medical and Surgical Vitreoretinal Diseases

Michelle D. Lingao, M.D.

Medical School: University of the Philippines  
College of Medicine

Residency: UP-Philippine General Hospital  
Department of Ophthalmology and Visual Sciences

Fellowship: UP-Philippine General Hospital  
Department of Ophthalmology and Visual Sciences

Specialization: General Ophthalmology and Cataract Surgery  
Pediatric Ophthalmology and Strabismus Surgery

Daniel N. Ong, M.D.

Medical School: University of the Philippines  
College of Medicine

Residency: UP-Philippine General Hospital  
Department of Ophthalmology and Visual Sciences

Fellowship: UP-Philippine General Hospital  
Department of Ophthalmology and Visual Sciences

Specialization: General Ophthalmology and Cataract Surgery  
Corneal and External Eye Diseases
Jonalyn A. Rodriguez, M.D.

Medical School: University of the Philippines College of Medicine
Residency: UP-Philippine General Hospital Department of Ophthalmology and Visual Sciences
Fellowship: UP-Philippine General Hospital Department of Ophthalmology and Visual Sciences
Specialization: General Ophthalmology and Cataract Surgery, Corneal and External Eye Diseases

Farlah Angela M. Salvosa-Sevilla, M.D.

Medical School: University of the Philippines College of Medicine
Residency: UP-Philippine General Hospital Department of Ophthalmology and Visual Sciences
Fellowship: UP-Philippine General Hospital Department of Ophthalmology and Visual Sciences
Specialization: General Ophthalmology and Cataract Surgery, Medical and Surgical Vitreoretinal Diseases

ORTHOPEDIC

Rey Thomas P. Dela Rosa, M.D.

Medical School: University of the East Ramon Magsaysay Memorial Medical Center (UERMMMC)
Residency: Philippine Orthopedics Center, 2003-2007
Fellowship: Singapore General Hospital (Adult Joint Reconstruction) 2010
Philippine Orthopaedic Institute (Arthritis and Joint Replacement) 2009
Specialization: Orthopaedic Surgeon
**Antonio B. Sison, M.D.**

**Medical School:** University of Santo Tomas, College of Medicine  
**Residency:** National Orthopaedic Hospital, 1972  
**Fellowship:** The Accident Hospital and Birmingham University, England, (1973)  
Spine Center, Perth, W. Australia, (1979)  
**Specialization:** Orthopaedics - Hips and Knee Replacement  
Spine Surgery

**Gerardo Juan M. Sison, M.D.**

**Medical School:** University of Sto. Tomas  
**Residency:** Philippine Orthopaedic Center  
**Fellowship:** Veterans Memorial Medical Center  
**Specialization:** Spine Surgery  
Arthroplasty  
General Orthopedics

**Jose Luis J. Danguilan, M.D.**

**Medical School:** University of the Philippines College of Medicine  
**Residency:** UP-Philippine General Hospital General Surgery  
**Fellowship:** UP-Philippine General Hospital  
(Thoracic and Cardiovascular Surgery)  
Tokyo Women’s Medical University, Tokyo, Japan  
(Cardiothoracic Surgery)  
Papworth Hospital Cambridge, England  
(Cardiac and Cardiopulmonary Transplantation)  
**Specialization:** Thoracic Surgery  
Vascular Surgery  
Trauma Surgery
**Fernando A. Melendres, M.D.**

**Medical School:** University of the Philippines College of Medicine  
(Faculty Silver Medalis)

**Residency:** Philippine General Hospital, 1976-1980

**Fellowship:** Killingbeck Hospital, Leeds, England, 1982  
(Cardiothoracic Surgery)

**Specialization:** Surgery of the Lungs and the Esophagus

---

**Nestor F. Venida, M.D.**

**Medical School:** University of the East Ramon Magsaysay Memorial Medical Center (UERMMMC)

**Residency:** Jose Reyes Memorial Medical Center  
(General Radiology)  
Veterans Memorial Medical Center  
(General Surgery)

**Fellowship:** Quezon Institute  
(Chest Diseases)  
Lung Center of the Philippines  
(Thoracic Surgery)

**Specialization:** Thoracic Surgery, Pulmonology
Department of Urology
On January 16, 1981, Section 1 of Presidential Decree 1832 formally created the National Kidney Foundation of the Philippines (NKFP). On February 23, 1983, Ms. Imelda Marcos, assisted by members of the Board of Trustees, laid down the cornerstone of the NKFP at its present site. Along with the establishment of NKFP came the humble beginnings of the Section of Urology, then under the Department of Surgery. Under the wings of the three pillars in Urology, Drs. Benjamin Magsino, Abelardo Prodigalidad and Genaro Yusi, it immediately created an impact in the local urologic community by establishing at the time of its inception a residency training program. Soon after, the patients came and the Urology service was born, with an exponential growth in consultations and surgical procedures performed over the next two decades. Throughout the years, this section came into its own, being elevated to full department status, and at present is one of the biggest contributors to the hospital revenue.

To date, the Department has spawned 54 graduates, and the number of consultant staff has risen to 24 active consultants and 11 visiting consultants. It continues to enrich the local urologic community by holding regular symposiums and workshops. Plans to establish a center for men’s health are also in the works. Indeed, the future is bright for the NKTI Department of Urology.
ADULT UROLOGY

David A. Abraham, M.D.

Medical School: University of Sto. Tomas, College of Medicine
Residency: Veterans Memorial Medical Center, 1972
Fellowship: VA Hospital Long Beach, California, USA 1977
Specialization: General Urology

Jose Benito A. Abraham, M.D.

Medical School: University of the East Ramon Magsaysay Memorial Medical Center (UERMMMC) College of Medicine
Fellowship: University of Texas Health Science Center Houston, 2007-2009
(Organ Transplantation and Immunology)
University of California, Irvine, 2006-2007
(Minimally Invasive Urologic Surgery)
Specialization: General Urology
Endourology
Laparoscopic & Robotic Surgery
Organ Transplantation and Immunology

Sigrid M. Agcaoili, M.D.

Medical School: University of Santo Tomas Faculty of Medicine and Surgery
Residency: Cardinal Santos Medical Center (General Surgery) 2004-2005
National Kidney and Transplant Institute (Urology) 2006-2009
Fellowship: Wake Forest University Institute for Regenerative Medicine 2010-2012
Specialization: General Urology, Endourology, Female Urology Regenerative Medicine and Tissue Engineering Stem Cell and Cell-Based Therapy
Frances Monette P. Bragais, M.D.

Medical School: University of Santo Tomas
Residency: National Kidney and Transplant Institute
Fellowship: Cleveland Clinic, Cleveland Ohio
(Male Infertility and Andrology)
Specialization: General Urology, Male Infertility and Andrology, Endourology, Female Urology

Arturo P. Castro Jr., M.D.

Medical School: University of the Philippine, College of Medicine
Residency: National Kidney and Transplant Institute (Urology)
Fellowship: University of Miami
(Endourology, Robotics, Laparoscopy and Minimally Invasive Surgery)
Specialization: General Urology
Endourology
Robotics
Laparoscopy
Minimally Invasive Surgery

Rudolfo I. De Guzman, M.D.

Medical School: University of Sto. Tomas, College of Medicine
Fellowship: Philippine Society of Urologic Oncologists & NKTI Urologic Oncology
Specialization: General Urology
Urologic Oncology
Reynaldo C. Dela Cruz, M.D.

Medical School: University of the East Ramon Magsaysay Memorial Medical Center (UERMMMC) College of Medicine
Residency: Dalhousie University, Queen Elizabeth Victoria Gen. Hospital, Halifax, Nova Scotia Canada, 1978-1981 (Urology)
Fellowship: (R4) University of British Columbia Urology Training Program Vancouver B.C., Canada, 1981 (General and Oncologic Urology)
Specialization: Urologic Oncology Brachytherapy Cryotherapy Laparoscopy

Luis N. Florencio, Jr., M.D.

Medical School: University of the East Ramon Magsaysay Memorial Medical Center (UERMMMC)
Residency: National Kidney and Transplant Institute (General Urology)
Fellowship: 13th USAF Medical Center (General Surgery) New York University (NYU)
Specialization: Uro-Laparoscopy Kidney Transplant Endourology Urodynamics / Male Infertility

Ernesto L. Gerial, Jr., M.D.

Medical School: University of Santo Tomas College of Medicine
Post-Graduate Training in Laparoscopic Surgery Westmead Hospital, Sydney, Australia
Specialization: General, Transplant and Laparoscopic Urology Minimally Invasive Laparoscopic, Endoscopic & Robotic Urology
Emmanuel V. Lenon, M.D.

Medical School: University of Sto. Tomas
College of Medicine and Surgery

Residency: National Kidney and Transplant Institute
(General Surgery) 1987- 1988

Fellowship: National Kidney and Transplant Institute
(Urology) 1989-1992

Specialization: General Urology
Urologic Oncology
Reconstructive Urology
Transplant Surgery (donor)
Minimally-Invasive Urology
Endourology

Jesus Benjamin L. Mendoza, M.D.

Medical School: University of the Philippines
College of Medicine

Residency: UP-Philippine General Hospital

Fellowship: Long Island Jewish Hospital
New York

Specialization: Endourology
Sexual Dysfunction
Prostate Cancer

Marcelino L. Morales, Jr., M.D.

Medical School: University of Sto. Tomas

Residency: Metropolitan Hospital
(General Surgery)

Fellowship: National Kidney and Transplant Institute
(Urology) 1988

Specialization: General Urology
Endo-Urology
Minimally Invasive Urology
Urologic Oncology
**Jose-Vicente T. Prodigalidad, M.D.**

**Medical School:** University of the Philippines
College of Medicine and Surgery

**Residency:** UP-Philippine General Hospital, 1998
(General Urology)

**Fellowship:** Institut Jules Bordet, Universite Libre Du Bruxelles
Brussels, Belgium (2000-2001)
(Urologic Oncology and Laparoscopy)
Brady Urologic Institute, John Hopkins Medical
Institutions, Baltimore Maryland (2003)
(Urologic Laparoscopy)

**Specialization:** General Urology
Urologic Oncology and Laparoscopy
Robotic Surgery

---

**Abelardo M. Prodigalidad, M.D.**

**Medical School:** University of Sto. Tomas

**Residency:** N.Y. University Medical Center-NYC

**Fellowship:** Memorial Sloan Kettering Cancer Center, New York
(Uro Oncology)

**Specialization:** Urologic Oncology
General Urology

---

**Nelson A. Patron, M.D.**

**Medical School:** University of Santo Tomas
Faculty of Medicine and Surgery

**Residency:** Capitol Medical Center, 1981-1983
(General Surgery)

**Fellowship:** National Kidney and Transplant Institute, 1983-1987
(Urology)

**Specialization:** General Urology
Urologic Oncology
Endourology
Eduardo L. Rivera, M.D.

Medical School: University of Sto. Tomas
College of Medicine and Surgery

Residency: Makati Medical Center
(General Surgery)

Fellowship: National Kidney and Transplant Institute
(Urology)

Specialization: General Urology
Renal Transplant

Dennis P. Serrano, M.D.

Medical School: University of the Philippines
College of Medicine

Residency: UP-Philippine General Hospital
(Urology)

Fellowship: Cleveland Clinic Foundation
(Kidney Transplantation)

Specialization: Urology and Kidney Transplantation

Jaime SD. Songco, M.D.

Medical School: University of Sto. Tomas

Residency: Makati Medical Center
(General Surgery) 1986-1988

Fellowship: National Kidney and Transplant Institute
(Urology) 1988-1991
Memorial Sloan Kettering Cancer Center
New York 1992
(Urologic Oncology)
William Beaumont Hospital
Royal Oak Michigan 1994
(Research Fellow - Urology)

Specialization: Urologic Oncology
General Urology

Antonio T. Tiongson Jr., M.D.

Medical School: University of Santo Tomas

Residency: East Avenue Medical Center

Fellowship: East Avenue Medical Center

Specialization: General Urology
Endourology
Samuel Vincent G. Yrastorza, M.D.

Medical School: University of the East Ramon Magsaysay Memorial Medical Center (UERMMMC)
Residency: East Avenue Medical Center
Fellowship: Klinikum Heilbronn, Heilbronn Germany (Laparoscopy, Endourology, Robotics Surgery Urologic Oncology)
          Dessert Urology, Las Vegas, Nevada (Urodynamics)
Specialization: General Urology
               Urologic Oncology
               Laparoscopic Urology
               Robot Assisted Laparoscopy

Genlinus D. Yusi, M.D.

Medical School: University of the Philippines College of Medicine
Residency: National Kidney and Transplant Institute
Fellowship: National Kidney and Transplant Institute
Specialization: General & Transplant Urology
               Laparoscopic & Endourology
               Urologic Oncology

Hermenegildo Jose B. Zialcita, M.D.

Medical School: University of Sto. Tomas
Residency: National Kidney and Transplant Institute
Fellowship: Lions Kidney Hospital & Urology Research Institute, New Delhi, India
Specialization: Percutaneous Nephrolithotomy (PCNL)
               Keyhole Stone Surgery
               Laparoscopic and Endourologic Surgery
               General Urology
Jose Dante P. Dator, M.D.

Medical School: University of the Philippines College of Medicine
Residency: UP-Philippine General Hospital (General Urology) 1989
Fellowship: Pediatric Urology Childrens Hospital Harvard Medical School Boston, MA USA 1990-1991
Specialization: Pediatric Urology Tumor Immunotherapy

Michael John Francis V. Gaston, M.D.

Medical School: University of the Philippines College of Medicine
Residency: UP-Philippine General Hospital
Fellowship: Boston Children's Hospital Harvard Medical School
Specialization: Pediatric Urology

Carlos Ramon N. Torres Jr., M.D.

Medical School: University of the Philippines
Residency: UP-Philippine General Hospital, (1996) Department of Surgery Division of Urology
Fellowship: University of California San Francisco, USA (Pediatric Urology) 2001-2002
Specialization: Adult and Pediatric Urology
